Mitch,

The response looks good. I sent it to legal for review.

Subject Final draft of the response to PE IR concerning the ES350 AWFM

Chris,

How's the test going?

I talked with George a couple of hours ago about the response which I modified yesterday. He said it looked good to him.

And after he did the final review of the draft, we made some changes and I think there is no problem on them.

Attached is the TMC&TMS' final draft of the response. One includes the change tracking and one is without.

Therefore, I would like you to do the final review of the attached response and if you have any concerns/comments, let me know.

In addition, if you do not have a comment on the draft, please send the attached file(without change tracking) to TMS-Legal department and ask him to review it.

If you make some changes to the draft, please send it to Legal after that.

I think most of works on this issue are done, except for the sale number. I will send the table of the sale number (Attachment-Response 11) to you today for your review.

In addition, we revised some attachments after sending you a CD.(a file name was changed and the number of

complaints was changed, and so on.) So I will send the final version of the attachments on CD today, including the table of the sale number.

If you have any question, let me know.

Thank you for your cooperation and support.

I hope all tests will be done well.

Best regards,

Mitch
